

Spring Postal Express

As an e-commerce player your business relies on the delivery of your packages worldwide.

You want to feel confident that all destinations are reached:

Safely

Quickly

Affordably

That's why Spring is proud to announce the launch of its new international delivery service: Spring Postal Express, **powered by International EMS network** - the fastest cross-border postal service in the world.

Spring Postal Express is a fast, competitive service our customers rely on for their international delivery needs. The EMS network behind it has a strong reputation amongst end-customers that will help e-commerce players strengthen and develop their position in the global marketplace.

We listen.
We inspire.
We deliver.

Why is Spring Postal Express so efficient?

The EMS Cooperative part of the Universal Postal Union, includes more than 180 postal operators around the world. Spring's access to this established collective offers you a reliable e-commerce solution enabling you to reach even the furthest international destinations. With Spring Postal Express you can now take advantage of the largest last mile coverage in the world.

How Spring Postal Express can help your ecommerce business

- Get priority over other postal services
- Send packages up to 20 kg and 150 cm in diameter even to remote destinations
- Enjoy easy and fast customs processing
- Trace your packages in real time from door to door
- Use the reputable EMS global network

Wherever you are in the world if you're a Spring customer you can use Spring Postal Express.

Contact your nearest Spring office now for more information and additional features per destination.
